

# Save the Dates!

## CREATE for STEM Institute's Spring 2024 Speaker Series - Updated

All of these sessions will be held in the CREATE for STEM seminar space,  
115 Erickson Hall from noon - 1:15pm.

Light refreshments will be provided. A Zoom option will be offered (with registration required), but we would love to see attendees in person, too!

We do record speaker presentations and make them available on our YouTube channel and Community website.

***Watch for further information prior to each session.***

**Tuesday, March 12:** Lauri Kolamets, PhD candidate, Chemistry Education, University of Tartu, Estonia (special international guest)

**Tuesday, April 9:** Dr. Danny Morales-Doyle, Associate Professor of Science Education, University of Chicago - Illinois

**Tuesday, April 16:** \*Dr. Aman Yadav, Lappan-Phillips Professor of Computing Education; Anne Drew Hu, PhD candidate; and Nick Schwartz, graduate student, Michigan State University

(This presentation is also part of the Teaching & Learning with Generative AI series)

**The annual Mini-Conference is scheduled for Monday, May 6, at the MSU STEM building. We are delighted to welcome Dr. Shirley Malcom (AAAS) as our keynote speaker! Registration will open soon!**
